Subject: Adding antibiotics to animal feed
Auto forwarded by a Rule

Dear Commissioner Henney,

I am a member of of the Center for Science in the Public Interest. I strongly urge you to ban the use of medically useful antibiotics in animal feed. Adding these antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. This can leave physicians with no way to treat life threatening bacterial infections in humans. That's why I support the petition filed by CSPI.

sincerely,

Steve Portera
